MEMORANDUM FOR THE SECRETARY OF DEFENSE DIRECTOR, CENTRAL INTELLIGENCE

Annual ELINT Program Conference (U) -SUBJECT: INFORMATION MEMORANDUM

BACKGROUND

- (C) In 1981 the Secretary of Defense endorsed an ongoing effort by the Intelligence Community to perform national-level ELINT planning and asked the Director, National Security Agency, to form a working group of the Services and Defense Agencies to develop a specific, coordinated National ELINT Plan. Representatives of the four Military Services, Defense Intelligence Agency, Office of the Secretary of the Air Force, Under Secretary of Defense for Research and Engineering, Intelligence Community Staff, and National Security Agency prepared such a plan in 1982 in conformance with the Secretary's guidance. This National ELINT Plan-1982 has been an effective vehicle by which ELINT activities throughout the U. S. Government are coordinated and enhanced. It has also been the basis for calling Annual ELINT Program Conferences in which senior managers review and coordinate program activities.
- The Third Annual ELINT Program Conference was held at NSA on 22 June 1984. The spirit of cooperation that characterized the first two conferences was even more prevalent this time. This third conference was a decided success in achieving its goals, which were to:
 - provide an orientation for each major participant on ELINT and related activities programmed by each of the other major participants;
 - afford an opportunity to see and discuss the relationships between the various major programs;
 - identify and resolve major issues, especially related to shortfalls, deficiencies, and duplication;
 - ensure proper cross-program awareness and coordination; and,
 - receive the annual report of the National ELINT Group and provide this Group with direction for the coming year.

DISCUSSION

- (C) The all-day conference opened with a Defense Intelligence Agency briefing on recent contributions of ELINT to the national intelligence effort. Following the tradition of inviting a major ELINT user to brief, the Naval Weapons Center at China Lake, California, described ELINT applications and shortfalls. Each of the Services, NSA, DIA, and OSAF then summarized their ELINT and related programs and shortfalls. A status report of the National ELINT Group's activities, and the National ELINT Plan that it oversees, was received. The conference concluded with a roundtable discussion of the major issues and with direction to the National ELINT Group for the coming year. (A detailed report from the National ELINT Group has previously been made available to DUSD(P), ADUSD(C³I), IC Staff, and CIA/OSO.)
- (C) The principal participants of the conference included senior representatives from DUSD (Policy), ADUSD (C³I), Army, Navy, Marine Corps, Air Force, the Defense Intelligence Agency, the Intelligence Community Staff, the Central Intelligence Agency, and the Office of the Secretary of the Air Force. A list of principal attendees is provided in Enclosure 1. Enclosure 2 is the Conference Agenda.
- (S) It became evident during the conference that considerable progress has been made over the past three years to improve the U.S. posture in using ELINT. There are, nevertheless, a number of continuing problems that will command the attention of the Intelligence Community during the coming months. Some of these problems are:

CONCLUSIONS

- (C) The National ELINT Group, consisting of representation of the Intelligence Community and Military Services, has become a key instrument in monitoring the implementation of the National ELINT Plan, identifying common issues, and reviewing program initiatives. The Group has been charged with preparing a new National ELINT Plan to be published in 1985.
- (U) Finally, I would note that without the diligent efforts of the members of the National ELINT Group and the principal members who devoted an entire day to this Third Annual ELINT Program Conference, there could not have been a meaningful exchange or the added emphasis on the directions being taken by the U.S. ELINT Community.

LINCOLN D. FAURER Lieutenant General, USAF Director, NSA/Chief, CSS
